Your visit summary

AI AT 70 · HEALTH FOR ALL AGES

Patient: **Maria Rodriguez** Visit date: **October 31, 2026**

Your visit

You came in for a follow-up of type 2 diabetes and high blood pressure. Your blood sugar and blood pressure are still too high.

Your medicines

Blood sugar medicine (Metformin) Higher dose

➜ **Take 1 pill (1000 mg) twice a day, with meals.**

Blood pressure medicine (Amlodipine) Lower dose

➜ **Take 1 pill (5 mg) each day.**

This medicine may be causing the swelling in both legs.

Cholesterol medicine (Atorvastatin)

➜ **Take 1 pill (40 mg) at bedtime.**

Pain medicine (Acetaminophen)

➜ **Take 1 pill (500 mg) as needed for knee pain.**

What to do next

- Go to the lab today for a blood test (BMP) and a urine test (microalbumin).
- Raise your legs when you sit.
- Go to your follow-up visit in 4 weeks with Dr. Lee.
- **Go to the emergency room or call 911 if you have chest pain or trouble breathing.**
