Your visit summary

AI AT 70 · HEALTH FOR ALL AGES

Patient: **João Silva** Visit date: **October 31, 2026**

Your visit

You came in for a follow-up of heart failure. Heart failure means your heart can't pump enough oxygen-rich blood. The doctor thinks you have heart failure and high blood pressure.

Your medicines

Water pill (Furosemide) Higher dose

➜ **Take 1 pill (40 mg) each day.**

Blood pressure medicine (Lisinopril)

➜ **Keep taking 1 pill (10 mg) each day.**

Blood pressure medicine (Metoprolol)

➜ **Keep taking 1 pill (25 mg) twice a day.**

What to do next

- Weigh yourself every morning.
- Limit salt to 2 grams a day.
- Go to the lab in 1 week for a blood test (BMP).
- Go to your follow-up visit in 2 weeks with Dr. Lee.
- **Call us if your weight goes up more than 3 pounds in 2 days.**
- **Call 911 if you have chest pain or trouble breathing when you rest.**
